

## CURRICULUM VITAE

I am a hardworking, motivated, and ambitious individual with outstanding technical skills. I am passionate to begin a career in IT and so undertook a study programme to prepare me for the IT sector, with exposure to Cloud Computing. I recently graduated from a Cloud Engineer Programme specialising in troubleshooting hardware and software issues through a series of courses, practical work, and official certifications. I have a commitment to high standards when dealing with customers and staff members and possess excellent communication skills at all levels. I am confident that I will hit the ground running and be an asset to your organisation.

### CLOUD ENGINEER PROGRAMME

**IT Certify Ltd**  
Cloud Engineer Programme  
July 2022 – February 2024

The Cloud Engineer Programme focused on preparing me for the IT Support sector with exposure to Cloud Computing through a series of intense courses and practical application.

Courses studied included:

CompTIA IT Fundamentals, CompTIA A+, CompTIA Network+, CompTIA Cloud+, ITIL Foundation, MCSA Microsoft Windows 10, CompTIA Linux+, Cloud Computing Security Knowledge, Microsoft Azure and Amazon Web Services.

- Installing, Configuring & migrating Windows 10 Operating Systems
- Configuring Security systems & Windows firewall
- Troubleshooting common system and cloud problems
- Configuring and managing printers, configuring mobile devices
- Configure, manage, and maintain essential network devices
- Design and implementing a functional network
- Active Directory – unlocking user accounts, resetting passwords, searching users
- Implement network security, standards, and protocols

I have recently passed my CompTIA A+ qualifications specialising in troubleshooting hardware and software issues. More information on this certification can be found at: <https://certification.comptia.org/certifications/a>

**2023: CompTIA A+ 220-1101 & 1102 Certification**

### SYSTEMS EXPERIENCE:

Windows desktop systems, install, patching, troubleshooting, hardware replacement

Extensive experience with the Microsoft Office suite

Thorough understanding of computer, networking and security concepts

Working knowledge of Windows 10, Active Directory, PowerShell, Remote Access/Desktop and VMware.

Knowledge of many programming languages including C, C++, Python, Java, HTML, CSS, JavaScript, SQL, jQuery, and . NET.

## **CAREER HISTORY:**

**January 2022 to January 2024**
